Tools	Eclipse, MS Visual Studio, Git/GitHub, MS Power Apps, Mendix, SQL 2017
Documentation	FSD, TDD & SOW Preparation | Server & Client Deployment Guides | RCA Reports | User Training Guides

PROFESSIONAL EXPERIENCE

System Engineer — Tata Consultancy Services, Chennai
February 2024 – Present (Trainee → ASE → System Engineer)

- Delivering Teamcenter PLM customization, enhancements, and support for Baker Hughes Oil Field Operations LLC.
- Progressed from Trainee to System Engineer through consistent technical delivery across 5+ projects.
- Led the Java Exit dispatcher upgrade project as Team Lead, managing both technical execution and coordination.

PROJECT EXPERIENCE

Substance Compliance | *Mar 2026 – Present* | Teamcenter Developer | Team Member
Tech: TC 13.2.4, AW 5.2.4, Substance Compliance, SOA, Stylesheet

- Deployed OOTB compliance check features and developed a custom handler for automatic compliance during release workflows.
- Configured IMM module — imported materials/substances, set up auto-release with email notifications, and managed Access Manager for RBAC.
- Implemented MSD import with custom SOA validation and developed template filters for workflow visibility control.

PALM Enhancement & Bug Fix 2025 | *Dec 2025 – Mar 2026* | Teamcenter Developer | Team Member
Tech: TC 13.2.4, AW 5.2.4, RAC, SOA, ITK Customization

- Analyzed and validated requirements for functional enhancements and defect resolutions across two release cycles.
- Performed RCA for production defects and delivered fixes ensuring system stability and data integrity.
- Conducted technical reviews and developed enhancements aligned with Teamcenter standards.

Java Exit — Teamcenter Dispatcher Upgrade | *Sep 2025 – Dec 2025* | Teamcenter Developer | Team Lead
Tech: TC 13.2.4, AW 5.2.4, Dispatcher, Java, JT

- Led migration of Teamcenter Dispatcher from Java JRE 1.8 to Zulu 11; converted plugin JARs into runnable JARs.
- Installed and configured the upgraded Dispatcher, ensuring compatibility, stability, and improved performance.
- Directed bug resolution and RCA to ensure long-term reliability of the enterprise PLM dispatcher infrastructure.

MDR_VDE | *Jul 2025 – Sep 2025* | Teamcenter Developer | Team Member

Tech: TC 13.2.4, AW 5.2.4, BMIDE, SOA, ITK, RAC

- Performed BMIDE configurations — custom properties, LOVs, and extensions; developed custom SOA services integrated with RAC batch utilities.
- Designed database tables and stored procedures for staging data; implemented ITK customizations and created new workflows.

PALM Enhancement & Bug Fix 2024 | *Oct 2024 – Jun 2025* | Teamcenter Developer | Team Member

Tech: TC 13.2.4, AW 5.2.4, RAC, SOA, ITK Customization

- Analyzed and validated requirements for functional enhancements and defect resolutions across two release cycles.
- Performed RCA for production defects and delivered fixes ensuring system stability and data integrity.
- Conducted technical reviews and developed enhancements aligned with Teamcenter standards.
